**Introduced by Senator Kehoe**

February 19, 2010

---

An act to amend Section 11011.13 of, and to add Section 11011.19 to, the Government Code, and to add Section 6009 to the Public Resources Code, relating to public lands.

LEGISLATIVE COUNSEL'S DIGEST

SB 1350, as amended, Kehoe. Public Lands: records and uses.

Existing law requires the Department of General Services to maintain a complete and accurate statewide inventory of all real property held by the state and to categorize that inventory by agency and geographical location. Existing law defines "agency" for that purpose as any state agency, department, division, bureau, board, commission, district agricultural association, and the California State University, and excludes from that definition the Legislature, the University of California, and the Department of Transportation.

This bill additionally would exclude from that definition of "agency" the State Lands Commission, and would require the commission, by July 1, 2011, to furnish to the Department of General Services a record of each parcel of real property, excluding public trust lands, that the commission possesses that is not already being tracked by the statewide property inventory database. The bill would require the commission to update its record of these real property holdings, reflecting any changes *occurring by December 31 of the previous year*, by July 1 of each year.

The bill also would include legislative findings and declarations regarding public trust lands.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*
